## **Proven Nature's Best**

Fat is food turned into the wrong kind of material for the body. Inwead of the blood taking up the food we eat and giving it to the body in the form of good, hard, sound flesh, nerve and bone, fat is thrown into the tissues and is packed around the organs and beneath the ekin. This at last tears down all the vital forces of the system and destroys not only manly health and commitmen. but likewise reof the system and destroys not only manly health and comeliness, but likewise regults in death. The sure way and the best way is to take a Marmola tablet after each meal. You may then eat what you will, and when you will, and the stomach and digestive organs will turn the meal into the very kind of nourishment you must need. Fat is stopped at once, and the fat you have is removed in a way that nature herself suggests, at the rate of from 12 to 15 cunces per day, and there are no flabby rolls of skin and deep wrinkies left to remind you of the days when you ware fat. Every druggiest estic these tablets, which are made after the famous Marmola "precription. They are harmless, but thousands prove that they do reduce fat jus, as we say they they for or or case, to The Marmola Co. It you can't buy them from your druggist or you do prader send 75 cents, the price of a case, to The Marmola Co. It at Parmer Huitding, Detroit, Mich. and they will send same to you by return mail

### Men's GIMBEL CLOTHING With the Ring of Spring Newness

How quickly a man gets out of conceit with his Winter clothing, under the mellowing influence of a few warm, sunny Spring days!

Here, at GIMBELS, is Clothing that really radiates Spring and puts him at once in tune with the joyful orchestra of the great out-doors.

Nothing to jar his sense of harmony in these new Spring Overcoats that are equally in "good form," whether worn in city or country—of which the new Gimbel "Avenue" Coat, at \$25 and \$35, is a good example, in its smart rough gray, brown, olive, and King's blue materials, and with its flaring, short skirts, belted and plaited back, or in the splendidly tailored and more conservative Chesterfields, black or Oxford gray. The Overcoats at \$18.50 to \$40.

There's a cheering note, too, in the new Sack Suits that bespeak the most excellent of tailoring, as evidenced in their soft rolling lapels, and their utter absence of padding—(a trick, by the way, that you'll not find so successfully turned in any Men's Clothing outside of GIMBELS).

Oxford blues and what one might call Oxford browns—for the clear brown is mingled with white—the new purplish or amethyst shades, as well as the sedater grays; many with stripes of varying spacings. Materials that don't stray into the common-or-garden kinds of Men's Clothing. The Suits, \$15 to \$45.

In short, this is Spring Clothing for men of good taste—the outre is as severely avoided as the commonplace. The result is well-bred distinctiveness—and the prices are moderate. Come and see for yourself.
